

YEAR 7 MEMO: 19th MARCH 2025

HOMWORK REMINDERS

Independent study is an integral part of learning in order for students to achieve the best possible outcomes. Not only is it important for students to get used to working at home so that they are able to prepare for the study skills necessary for their exams, but also it is a key skill required to cope with professional demands in many careers and industries.

Homework Schedule

	Monday	Tuesday	Wednesday	Thursday	Friday
Year 7*	7NEW MFL	English	Science	Maths	7SOM MFL

Due to A/B week timetables, Humanities and VTC homework is will be given at different times during the week.

In order to support this, KS3 homework will be linked to the key learning objectives in students' [Knowledge Organisers](#) so parents and carers have a clear overview of what is being practised. The additional resources section will have activities to further practise the knowledge required. Other important links include [Reading Plus](#) for the reading home learning and [Sparx Maths](#) for Maths practice.

Please look at [Study Support Information](#) for further information and valuable resources to support your child at home.
